ELECTRONIC IMAGING—SYSTEMS

Avedon, Don M.
Electronic Imaging 101 Part I—What Is Electronic Imaging?
This is the first of a series of articles providing a primer on electronic imaging. Included are explanations of character-based digitization and bitmapping, and electronic imaging system planning checklist, and a glossary and table of basic units.
Apr. 1994 Vol. 28 No. 2 Page 28

Avedon, Don M.
Electronic Imaging 101 Part II—Optical Disks and Backfile Conversions
This is the second in a series of articles providing a primer on electronic imaging. In this article we will cover two topics: optical disk—the storage medium that most electronic imaging systems use, and backfile conversion decisions—which all system designers and managers will have to make.
Jul. 1994 Vol. 28 No. 3 Page 34

Avedon, Don M.
Electronic Imaging 101 Part III—Application Analysis, Document Preparation and Digitizing
This is the third in a series of articles providing a primer on electronic imaging. This installment covers three topics: application analysis including sampling, testing and sizing a project; the labor intensive document preparation task, and digitizing and scanners.
